Docket No. 98N-1265

Food and Drug Administration '99 APR 16 A9:40

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: It is most unfortunate that the FDA seems to be so much an agent of drug companies. All decisions seem to a l w a y s primarily benefit drug companies.

In the last few years I have been very turned off by pharmaceutical (drug co.) products from my own experience. It seems that the companies can seldom create anything that could be beneficial without harming the system in other ways in the process. The solution often proposed is more ^{med}ications for the side effects.

I strongly urge that there continue to be alternatives to drug company products!
